HOTEL

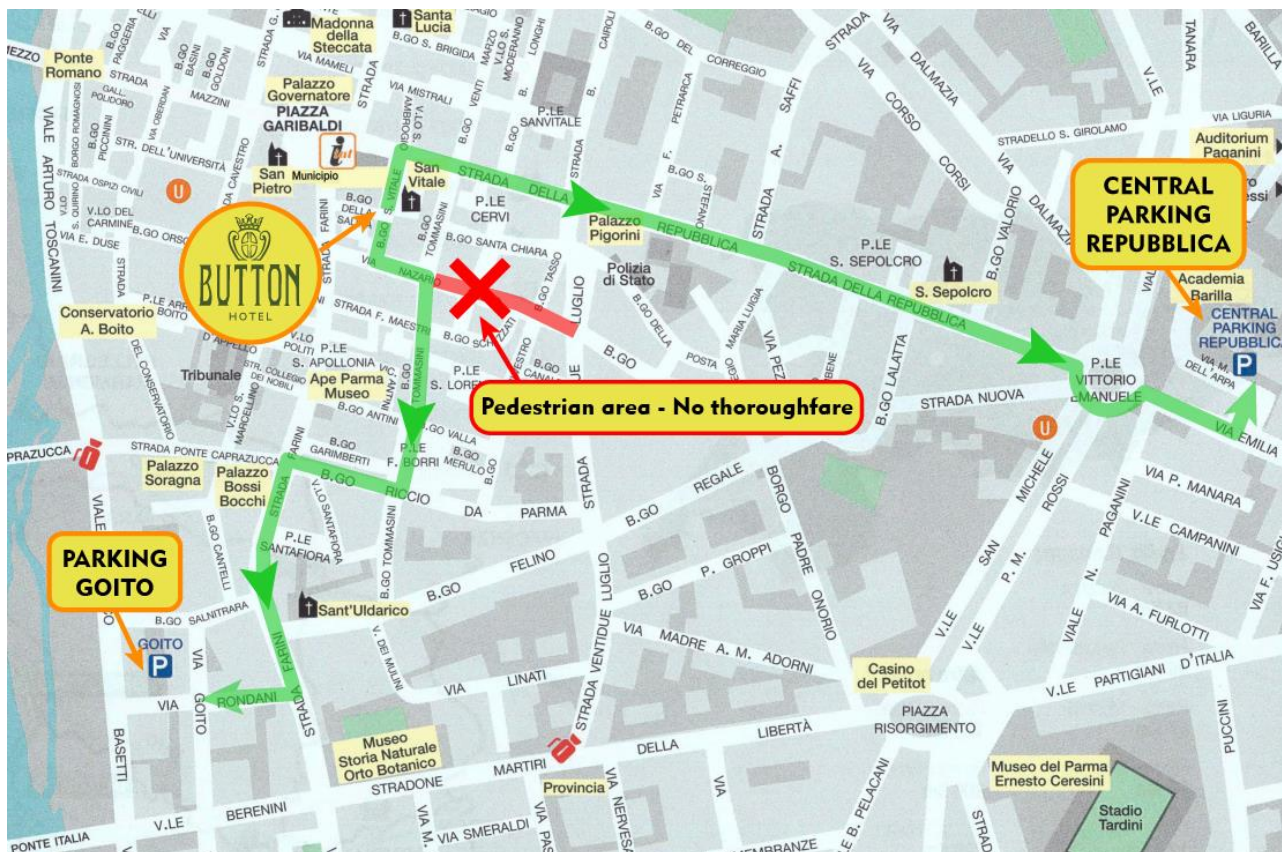

BY CAR

Dear customer, you can easily come to the **Hotel Button** by car.

However, it is our concern to inform you that our building is located in the old town, consequently in a **restricted traffic zone**. It is highly suggested to follow our guidelines.

Once you reach the hotel, you should:

- leave your luggage,
 - provide at the reception your **car plate number** and you could choose two options to reach our affiliated car parks:
- 1) You can drive to **Strada della Repubblica** (by following the green line on the top of the map, which is right here, down below) and in 1 km you will reach the **Central Parking Repubblica (8,50 euro per day)**. In order to go back to the hotel **on foot**, you can easily walk the same way and it will take you about **10 minutes**.
 - 2) You can drive to **Goito parking** (by following the other green line, at the bottom left on the map) and it will cost you **14 euro per day**. However, choosing this option means also **pay close attention not to go to the pedestrian area** (it says "VARCO ATTIVO" 0-12pm) in **Via Nazario Sauro** (which is marked on the map by a red line); consequently, you must take the right **Borgo Tommasini**, continuing on the right **Borgo Riccio**, then on the left **Strada Farini**, again on the right **Via Rondani** and, at the end, on the right again **Via Goito** (from the parking to the hotel is 900 meters by car). In order to go back to the hotel, it will take you **7 minutes** walking through **Borgo Salnitara** and turning on the left to **Strada Farini** until **Borgo della Salina** where, at the end of the street you will find **Hotel Button**.
